

# PRODUCT CARE

HELPING YOU  
MAKE A FIRST  
IMPRESSION  
THAT LASTS

The commercial floor you choose says a lot about your business to customers, employees, and tenants alike. Spectra product care specialists can help you make it last with a customized program of regular cleaning and maintenance services.

**Maximize your investment with Spectra product care services.**

## SHOW YOU CARE WITH PRODUCT CARE

Flooring is one of the biggest investments you'll make in your business and proper maintenance is crucial to how it will perform over time. Poorly maintained floors can result in surface damage, faded fibers and surfaces, substandard indoor air quality, employee and tenant injuries, and possible costly repairs. Even waiting until it starts to look dirty can be too late.

Spectra product care professionals can provide regular, comprehensive cleaning for your floor to help it maintain its appearance and integrity. We'll analyze usage and cost variables to develop a custom program of continuing care so you can enjoy that "brand new look" longer.

# PRODUCT CARE

## BETTER PRODUCTS. BETTER RESULTS.

Floor cleaning products today are not only made better to clean better, they're better for the earth. Polymer technology is better than chemicals of the past, delivering longer wear, better scuff resistance, glossier appearance and an overall healthy shield. Our available selection of green cleaning products are contaminant-free and minimize chemical, particle and moisture residue. You'll feel good knowing that you're using products that help improve air quality while delivering a low environmental impact.

## CLEANING & MAINTENANCE SERVICES

Don't have the time or the staff to keep your floors maintained? Spectra technicians have the comprehensive knowledge to clean and care for any type of floor. With our professional experience and expertise, you can rest easy knowing the job will be done right every time. Trust our crews to help you clean and maintain:

- Carpet (broadloom, carpet tile, area rugs)
- Hard surfaces (wood, ceramic, stone)
- Resilient flooring (VCT, sheet vinyl, linoleum)
- Laminate
- Rubber and athletic flooring
- Cubicle panels
- Upholstery
- On-call emergency cleaning (water damage, spot removal)
- Carpet repairs
- Walk-off mat systems including interior, exterior, corporate identity and custom sizes
