

V.I.T. (vertical installation technology™)

ELEVATE YOUR OFFICE RENOVATION TO A NEW LEVEL

Replacing your worn-out office carpet can be a daunting task. The thought of interrupting business to disassemble and move office furniture is anything but pleasant. Now you don't have to. Introducing Spectra's Vertical Installation Technology (V.I.T.). **Three simple steps to one easy solution.**

REPLACE WHILE YOU STAY IN PLACE

Vertical Installation Technology (V.I.T.) is a proprietary system that utilizes custom-fit, free-standing jack mechanisms to lift furniture where it stands, without having to disassemble and move it to another location. It's the easiest, most cost-effective way to replace office carpet in working environments. Plus, we can do it during non-work hours to keep your business moving ahead without any of the headaches.

V.I.T. (vertical installation technology™)

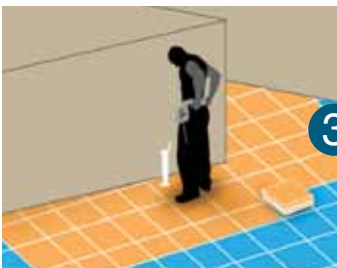

3 EASY STEPS

1 Qualified professionals lift furniture using a V.I.T. lift

2 Old carpet is removed and replaced

3 Furniture is lowered to its original position

SAVE AT LEAST 20% OVER CONVENTIONAL CARPET REPLACEMENT

The numbers don't lie. When you choose to replace your office carpet using Spectra's V.I.T. system you'll save money.

	V.I.T. Method	Conventional Method
Broadloom Carpet	\$0.00	\$20.00
Carpet Tile	\$28.00	\$0.00
Systems Furniture	\$0.00	\$25.00
Computers and Phones	\$0.00	\$5.00
Broadloom Installation	\$0.00	\$5.00
V.I.T. Installation	\$15.00	\$0.00
Old Carpet Removal	\$0.00	\$2.00
Old Carpet Disposal	\$1.50	\$1.50
Total Cost Per Yard	\$44.50	\$58.50
Cost Based on 10,000 sf	\$51,931.00	\$68,270.00

TOTAL SAVINGS: \$16,339.00

Example: 10,000 sq ft of occupied office space. Note: Disposal of existing floor covering may vary depending on geographical location. Savings are subject to variance based on location.

V.I.T. FACTS

- You can realize significant cost savings over conventional carpet replacement
- We'll install during non-work hours to eliminate any loss of productivity (evenings, weekends, or vacation periods)
- There's no need for costly disassembly or reassembly of office furniture
- Phones and computers can stay in place and stay connected during the process
- Lifting, instead of moving, office furniture helps protect existing electric and communication wires
- Employee relocation is eliminated
- V.I.T. lift systems can be customized to fit any type of furniture
- Qualified, trained professionals assure safety and security during the process
